Re: Candia-Raymond, 43221

Jan Kent  
Conservation Commission Chair  
4 Epping Street  
Raymond, NH 03077

Dear Ms. Kent:

The New Hampshire Department of Transportation (NHDOT) proposes to do bridge preservation work to extend the useful life of the decks of three bridges along NH Route 27 in Candia and Raymond, NH. This bridge preservation project consists of the removal and replacement of bridge pavement and membrane, and partial and full depth deck repairs, as required, for two bridges in Candia and one in Raymond. A location map is enclosed.

Engineering studies have been initiated to refine the scope and limits of work necessary for this project. The Department's Bureau of Environment is in the process of evaluating the potential environmental impacts associated with the project. To assist in this evaluation, I am asking that you notify me of any concerns relative to the project's potential impacts on environmental, social, economic, or cultural resources, such as wetlands, historic properties, and invasive plant species.

The tentative advertising date for this project is August 2021. Please feel free to contact me if you have any questions or require further information regarding the project. This letter has been sent to the Town Council, Town Manager, Public Works Director, Planning Assistant, Historic District Commission, and Conservation Commission.

Thank you for your assistance.

Sincerely,

Marc Laurin  
Senior Environmental Manager  
NH Department of Transportation  
Bureau of Environment
