Re: Driveway permits for Lots 73, 74, & 75 on Green Road

Board,

The recently retired Public Works Director, Steve Brewer, reviewed the Driveway applications for Town conformance. The current PWD, David Fredrickson, as well as I have inspected the proposed driveway sites. If constructed to conform to Town requirements as outlined by the PWDs, there should be no reason to assume emergency apparatus could not utilize these driveways.

Thank you for considering this correspondence.

Respectfully,

Paul Hammond
Fire Chief
