Dear Applicant:

On July 20, 2021, the New Hampshire Department of Environmental Services (NHDES) Wetlands Bureau received the above-referenced Standard Dredge and Fill Wetlands Permit Application (Application). On July 20, 2021, the NHDES Wetlands Bureau determined the Application was administratively incomplete, as it did not include the minimum information required under Env-Wt 312.02 for technical review. The following information was missing:

- Copies of certified postal receipts or other proof of receipt of the notices that are required by RSA 482-A:3, I(d) 311.03(b)(13) to the Local River Management Advisory Committee (LAC).

Please submit all required information to the NHDES Wetlands Bureau within 60 days of the date of this notice to file an administratively complete Application. In accordance with applicable statutes and regulations, a copy of the required information or modified elements of the Application must be provided to the municipal clerk and all other interested parties. If the required information is not received by September 18, 2021, the Application will be denied in accordance with RSA 482-A:3, XIV(a)(1). Please include NHDES Wetlands Bureau file number 2021-02299 with your submission.

If you have any questions, please contact the Wetlands Bureau at (603) 271-2147.

Sincerely,
