Town of Raymond Board of Selectman Meeting
Draft Minutes
March 14, 2022 6:30 p.m.
Raymond High School Media Center

Attendees:

George Plante, Chair
Kathleen Hoelzel, Vice Chair
D. Scott Campbell, Selectman
William Weldy, Selectman
Christopher Long, Selectman

Staff:

Deborah Intonti, Exec. Asst.

Public Meeting Opened at 6:31 p.m.

Pledge was recited.

Moment of Silence: Robert W. Cheney, Lawrence J. Dumont

Public Comment opened at 6:36 p.m.

Tina Thomas: asked the Board about the moment of silence portion of the meeting and why are the names printed on the agendas not reflected in the minutes. Concerned about the minutes not being correct and matching the agenda. Board Chair stated that it can be reflected in future minutes to list the names. Right to know request sent to town clerk last week. She requested:

From: Tina Thomas <tinamthomasnh@yahoo.com>

Sent: Thursday, March 10, 2022 9:04 PM

To: Alyssa Richard <Arichard@raymondnh.gov>

Subject: Right to Know Requests

Good evening, Alissa,

I have two Right to Know Requests, under RSA 91-A.

First, I am respectfully request electronic copies of all Town Candidates registration forms. This is for all 21 people that registered to have their names printed on the March 8, 2022, Town ballot.

Second, under RSA 91-A I am requesting electronic copies of the maintenance records for each voting machine from 2014 through 2022. These should be sent to me, electronically, to this email address. Thank you, Tina M. Thomas

After further review of the documents sent to her, she stated that there was missing information. How can a candidate sign up for an elected office and not write in the position they are signing up for? How does the town clerk know where to put that candidate on the ballot? She had a sample ballot and gave several examples of missing information, missing documentation of what term they were running for and how that information was reflected on the ballot. If these are the candidates' registrations who assumed what position, they were running for? Her five questions are:

1. Who allowed this to happen?
2. Why was this information not triple checked prior to printing the ballot?
3. How are you going to deal with it?
4. When are you going to deal with it?
5. What policies and procedures will be put into place to ensure that this never happens again?

She stated that in a minute you will get copies of all that I have. She also stated that she wanted an answer as to whether or not she needs to go to superior court. The Chair stated that would not be addressed tonight.

Trisha Bridgeo: brought up Rockingham Planning Commission is currently having all of their workforce housing meetings that have started to take place. They have a workforce housing survey that they want our town to fill out and the citizen of the town – how do we want to handle getting this completed and having the discussion about this. They did mention that Raymond didn't have some the necessary infrastructure for workforce housing but even the definition of workforce housing I think we should get together to talk about it. Does it need to go on a future agenda, or do you want me to send when they want the survey completed by? This is all planning commissions within the State and the State is working on it as well. Selectman Weldy suggested to put the link on the town's website. Chairman Plante stated also mentioning it at the planning board meetings as well.

47 **Paul McCoy:** wants to get a building permit on Long Hill/Audette Road best place for the driveway is Audette Road looking
48 for a waiver of liability from the town. Chairman Plante asked if he had gone before the Planning Board? Mr. McCoy stated
49 the planning board is not involved with it as the Board of Selectmen make these decisions. Because you are coming
50 forward under public comment, we need to get you on a future agenda so the Board can see all the documents you have
51 in order for us to make a decision. Selectman Weldy stated going before the zoning board and have them make a
52 recommendation to the Board of Selectmen.

53 Public Comment Closed at 6:45p.m.

54 **Chair opened public hearing at 6:46 p.m.**

55 The Raymond Board of Selectmen will hold a Public Hearing on Monday, March 14, 2022, beginning at 6:30 pm
56 at the Raymond High School Media Center, 45 Harriman Hill Road, Raymond NH. This public hearing is for the purpose of
57 explanation and discussion for a special town meeting for voting on one warrant article to cure a procedural noticing
58 defect to ratify the results of the March 8, 2022, annual meeting under RSA 31:5-b, II (a). See warrant article below. *To*
59 *see if the Town will vote to ratify the results of the March 8, 2022, annual meeting pursuant to RSA 40:16 and RSA 31:5-*
60 *b,II to cure the procedural defect that the warrant posting timeframe requirements were not met.* Interested persons are
61 invited to attend and comment on these proposed items. Anyone wishing to submit written comments prior to the hearing
62 should address them to the Raymond Board of Selectmen, 4 Epping Street, Raymond, New Hampshire 03077, or email the
63 Board of Selectmen's office at the Town Hall on or before Friday, March 11, 2022, by 4:00 p.m.

64 **Wayne Welch, Town Moderator:** came forward to explain the process for the special meeting. The town missed the
65 warrant posting deadline by one day due to late submission of approved warrant back to the town in a timely manner.
66 Because of that, the warrant was not posted until 2/1/22. To cure the defect, we had our town voting on March 8, 2022,
67 but we now have to have a special meeting which is scheduled for 4/2/22. The special meeting may take place not less
68 than 21 calendar days after the 2nd session (March 8th). The special meeting is scheduled for Saturday, April 2, 2022, at
69 Raymond High School Café beginning at 10AM. The Board of Selectmen were required to have a public hearing posted 7
70 days prior to this public hearing (tonight) to explain the process to the public and allow for any resident questions and
71 concerns to be answered. This will be a traditional-style meeting, to ratify all Warrant Articles. Warrant Article #26 Storm
72 Water Planning CWSRF Loan needs a 3/5 vote. We strongly encourage all residents to attend! It will be a ballot vote at the
73 meeting, this 1 warrant article will be a ballot vote and will be kept with the supervisors of the check list and the meeting
74 needs to stay open for at least 1 hour. The Supervisors of the Checklist will have their session to accept new voters, or
75 make corrections to the checklist on March 26, 2022, from 12 noon – 12:30 at the Raymond Town Hall. Deliberations can
76 happen before the ballot vote. No amendments are allowed. If a 3/5 vote, all warrant articles pass including Warrant
77 Article #26 Storm Water Planning CWSRF Loan. If we only get a majority vote, all but the bond warrant article passes.
78 Tonight, after we close the public hearing, the board will vote to approve this warrant article, read above, and the Board
79 will need to sign, date and post with all warrant articles. This 1 warrant article needs to be placed in the newspaper 14
80 days prior to the special meeting (by March 17) and will be posted at town hall, the polling place and on the town website.
81 If the votes do not pass, we will have to go before the superior court.

82 **Tina Thomas:** pointed out that her questions still were not addressed from her public comment. Chairman Plante stated
83 he will look into it and does not have answers for her this evening. He will try to have an answer to her by Saturday.

84 **Public Hearing closed at 6:55 p.m.**

85 **Agenda:**

86 **Renewal Agreement – Division of Forest and Lands:** Paul Hammond came forward to discuss and get approved by the
87 board for the Forest Fire Protection Bureau, Federal Excess Property Cooperative Agreement. This agreement between
88 the Director of Division of Forests and Lands, Department of Natural and Cultural Resources acting on behalf of the State
89 of NH and the Selectmen of the Town of Raymond for a consideration of the loan by the State of NH to the Town of
90 Raymond the 1976 AMBN M35A2, serial number 76K3906211441, AG# AG0001683600 and 1979 AMG N M813 Serial
91 number USAF79K90022511353, AG # AG0001678655. By signing, the town agrees to accept the vehicles in their existing
92 condition, make repairs as needed, install equipment for its use as a forest fire control unit. We have two units one is a
93 1976 and one is a 1979. Tonight, we are asking the Board to sign both agreements for each truck to accept the agreements.
94 Vice Chair Hoelzel motioned to authorize and accept the Federal Excess Property Cooperative Agreements for the Forest
95 Fire Protection Bureau agreements to be signed, seconded by Selectman Weldy, Motion carried 5-0-0.

96 **Land Use Form for Approval:** New Hampshire Fish and Game is asking for the use of Torrent Hall for their annual ATV
97 class for children 12 and older on April 23rd 7:45AM – 3:30PM. They are asking to have the fees waived. Selectman Weldy
98 motioned to approve the New Hampshire Fish and Game for their ATV class for children and further to waive said fees for
99 the use of Torrent Hall on April 23rd, seconded by Selectman Long, Motion carried 5-0-0.

100 **Acceptance of Funds: Fire Department** – received a gift certificate from a resident (Hawkins family), for GMS Pizza in the
101 amount of \$100.00. Vice Chair Hoelzel motioned to allow the Fire Department to accept the gift certificate in the amount
102 of \$100.00 for the Fire Department, seconded by Selectman Weldy, Motion carried 5-0-0.

103 **Personnel Policy – Board of Selectmen Work Session:** Selectman Campbell asked if we had an official work session on this
104 topic, dedicated just to this topic. He stated that the Board needs to open the book up look at all the changes made from
105 2016 that were not authorized by the Board of Selectmen in their yearly authorization for changes. We are not talking
106 about just one section; we need to go back 6 years because that is the law. Ms. Intonti stated that there seems to be some
107 confusion as to what the board wanted. She stated that the Board requested hard copies of the personnel policy which
108 you all have had for the past month and Selectman Campbell wanted a stand-alone work session dedicated just to the
109 personnel policy, he reiterated that he wanted a stand alone meeting and not make it part of any other meeting so that
110 the Board was only focusing on the personnel policy. Selectman Campbell asked why the Town is continuing with
111 SchoolCare when the SAU dropped from School Care due to the high rates. Ms. Intonti stated that the SAU and the Town
112 are two different entities, and she was not aware that they dropped from the School Care entity. Selectman Campbell
113 asked if we sent out bids on our healthcare as we are supposed to put everything out to bid. Ms. Intonti stated that School
114 Care was in place since before her tenure and she could not answer his question as it would be under the Town Manager
115 to answer those questions. Selectman Weldy motioned to table the personnel policy work session until further dates
116 stated, Selectman Campbell amended Selectman Weldy’s statement to add when we do bring it back before the Board,
117 make it a “stand alone” meeting; seconded by Selectman Weldy, motion carried 5-0-0.

118 **Board Vote: To Release “Privileged & Confidential” Emails from Attorney RE: Board Investigation:** due to the Board
119 investigation motion on 2-28-22 regarding Mega-X the Board was counselled to vote to release privileged and confidential
120 emails from the attorney with regard to Mega-X. Vice Chair Hoelzel stated that she would like the opportunity to review
121 the contents of the emails submitted prior to approval of release. Selectman Campbell stated that these emails should be
122 public knowledge to the residents because they are “footing the bill” it is not personnel, and this has to do with one
123 specific project that the town is engaged in. Selectman Campbell stated he did not make any calls so anything that is on
124 there is don’t care if the townspeople see it because they should. Selectman Weldy motioned to release the Privileged &
125 Confidential” Emails from Attorney RE: Board Investigation regarding Mega-X, seconded by Selectman Campbell,
126 Chairman Plante recused himself; Vice Chair Hoelzel, voted opposed, motion carried 3-1-1. Ms. Intonti asked when the
127 “team” would be returning to continue the investigation; Selectman Campbell stated it has been so crazy lately; he stated
128 that he would bring up his information under the Board of Selectman report later in the meeting.

129 **CRF Request: Repair of Old Firehouse Alarm System**

130 Chief Hammond commented that is a replacement of the control panel on the old firehouse (torrent hall) to keep them
131 online. Chief Hammond explained that the old fire station does not have a system in it, and it all connects into one main
132 panel that is in the town hall. To reiterate, there is no alarm system in that old fire station. Selectman Campbell asked how
133 long have we been without this system? Chief Hammond stated that an actual alarm panel never existed. Selectman
134 Campbell stated that if we have lived without it doesn’t mean we don’t need it, but there are grants coming our way that
135 could possibly pay for this then it is not on the backs of the taxpayers. He stated that he wanted to speak on a couple of
136 grants that he found later in the meeting, and he is going to bring some of the grant writers with him and we will sit down
137 and go over this because it is all free money not tied into anything and we could probably get this taken care of. Chairman
138 Plante stated that he didn’t think that it was that vulnerable but there are some vital stuff that is stored in that building.
139 There are employees that are housed in that building that having no system is a safety issue as well. Selectman Long stated
140 that it is better to have it and not need it than to not have it and need it. He further stated that the building is a historical
141 building and that building holds a lot of documents. He agreed that the grant ideas were good as well. Selectman Campbell
142 stated that he hates to hold off; a resident stated Department of Labor (DOL) issues as well as the town has employees
143 working in that building. Selectman Campbell stated that it does not affect the DOL but again is was pointed out that the
144 town has offices in that building which house employees. Selectman Campbell stated that if someone is working in the
145 building and there is a fire, that the employees will know about it right away as it is common sense; he further stated that
146 there should be 4 heat detectors as that is code; so, the DOL would not touch on that. Chief Hammond stated that heat
147 detectors are not life safety. Selectman Weldy stated that this is similar to the grants we were hoping to come forward
148 when we did our body cameras for the police department; we ended up paying for them and over a year later the grants
149 became available. God help us if something happens at the old torrent hall, and we are not properly covered and someone
150 says you did not have the safety measures in place. I am in favor of it I would rather pay for it now then pay for it later.
151 Selectman Campbell stated that if there were no smoke detectors in the building that should have been addressed a long
152 time ago. Selectman Weldy motioned to authorize the expenditure from the CRF for the update and the repairs of the old

153 fire house alarm system in the amount of \$4,600 (Alarms Systems Plus), seconded by Selectman Long, motion carried 5-
154 0-0.

155 Approval of Board Minutes of 2-28-22: Vice Chair Hoelzel motioned to table these minutes to the next board meeting,
156 seconded by Selectman Weldy, motion carried 5-0-0.

157 **Board Announcements:**

158 **4th of July Committee** needs volunteers, next meeting is 3/24/22 @ 11:00AM at Torrent Hall. Selectman Weldy asked who
159 Chair of that Committee was – Sharon Baker/Finance is the Chair. He suggested that having some night meetings so others
160 who work can participate would be beneficial if the committee could make that happen, he was reassured that we may
161 get more volunteers to help. The committee is made up of all staff and could there be a secondary committee who could
162 meet in the evenings to also help.

163 **Donated Funds to the Town:** this donation is in the amount of \$75.00 . It was recommended by the bank that these
164 checks sent to a former employee who we have tried on several occasions to stop payment and send again only to find
165 that the checks are not cashed. Rather than keep re-issuing checks, we are donating these funds to the town. Chairman
166 Plante motioned to accept the donated funds back to the town in the amount of \$75.00 from Recreation outstanding
167 checks never cashed, seconded by Vice Chairman Hoelzel, motion carried 5-0-0. A resident (Tina Thomas asked that the
168 name be read into the minutes). Selectman Weldy amended the motion to include the name of Christine Coakely
169 seconded again by Vice Chair Hoelzel, motion carried 5-0-0.

170 **Open board/committee seats:** Chairman Plante continued to read announcements – open board/committee seats will be
171 announced at the next meeting as the information was not available in time for this meeting.

172 **Intent to Cut:** Selectman Weldy made a motion to sign the intent to cut, 10 acres for Severino Trucking Map 28 seconded
173 by Chairman Plante, Motion carried 3-2.

174 **Warrant Article for Special meeting** – It was brought forward by Executive Assistant as the Board needs to sign in two
175 places and has been instructed to post tomorrow at polling places along with all warrant articles. These warrants will be
176 posted through April 2, 2022. All Board members signed.

177 **Land Use:** was done earlier in the meeting with Fire Chief.

178 **Eversource Abatement Letter of Intent** – sent up to G Sansoucy's office for review

179 **Resident emails to BOS** – given to the Board from Kevin Woods.

180 **Correspondence: Letter from Town of Pittsfield:** Selectman Weldy read the letter regarding that Town and a public
181 hearing to be held on Thursday March 10, 2022.

182 **Cemetery Deeds** – Board signed

183 **Raymond Ambulance Fee Schedule** – given to the Board for their review. Attached to minutes.

184 **Citizen Questions/Answer Comments: Opened at 7:43 p.m.** Mr. Woods came forward to clarify and make comments to
185 the Board. Asked for the Board to relook at the Bean Tavern Charter and update if the Bean Tavern Committee plans on
186 moving forward. There is an end date of August 1st. The committee is still in existence, but they have not met since August.
187 Also, to place open board and committee openings on the agenda so residents will know what position are open.
188 Selectman Weldy stated that at a prior meeting that these boards/committees that are reporting to the Board and giving
189 updates, that they be put on the agenda rather than only giving them the 3-minute window to cover important
190 information. But there was a miscommunication, Kevin Woods was looking to have open positions posted on the agendas,
191 not being put on a future agenda. Ms. Intonti clarified. Kevin Woods read his letters to the Board into public record. And
192 read the openings. Ms. Intonti will confirm with Town Clerk and put that information on future agendas. Selectman Long
193 motioned that the Board attach the openings of other town boards to the minutes more consistently, seconded by
194 Selectman Weldy, Motion Carried 5-0-0.

195 Carlos Maldonado came forward asking about Mega-X Board investigation as he saw on facebook that the Board
196 investigation had started. What costs are associated with that investigation and how will that be incurred by the residents
197 of Raymond. Selectman Campbell commented that he will address that under the Board of Selectmen Reports.

198 **Town Manager's Report:** Selectman Campbell asked the Board Chair and HR if the Town Manager's job and the Planner
199 position been posted? Chairman Plante stated that it cannot happen until after the ratification of the 3/8/22 vote which
200 will be April 2, 2022, special meeting. Selectman Campbell motioned that he wants a committee together for the hiring
201 process for the Town Manager position with townspeople and Board of Selectmen, seconded by Selectman Weldy, Motion
202 Carried 4 affirmative unclear if 1 opposed. It was questioned if there should be a committee put together for the Planner
203 position as well. The planner would be hired by the Town Manager, but Selectman Weldy stated that if we wait it could
204 be another 60 days. Currently the Town has a contract with RPC for a "planner" , Ms. Intonti asked for direction moving
205 forward from the Board. Ms. Intonti stated that the Town Manager position is and has been running on the town webpage

206 as I have not been told otherwise to take it down, so now we have candidates who applied ages ago are we starting all
207 over and advertising and incorporating those candidates as well? Selectman Campbell stated we would start all over but
208 send an email to those who applied previously and ask them if they are still interested. She asked for advisement once the
209 Board has decided. Those applicants were emailed per the Board direction to let them know of the WA posting and some
210 replied that they were still interested after March 8th vote, do I reach out again to let them know about the April 2 vote.
211 Yes. Ms. Intonti will do tomorrow.

212 **Board of Selectmen's Report:** Selectman Long, no comments, Selectman Weldy no comments, Selectman Campbell
213 invited Mr. Maldonado back up to the table to answer his questions. He again asked what the costs associated with this
214 would be for the residents and what does "full investigation" mean? Selectmen Campbell stated that he was the guy that
215 got roped in to do the investigation, he stated there were also two state representatives assisting him and all three of us
216 looked through the files. We pulled all the way back from 2017 original location on Lane Road and tried to follow it all the
217 way forward until we got to up on Old Manchester Road. There are things in there that we have not found we are awaiting
218 release of privileged and confidential emails to be released from legal counsel; the costs the town pays me \$115 a month
219 and you will get a check just like that. Mr. Maldonado stated so you are doing the investigation, "yes" replied Selectman
220 Campbell along with the state representatives and actually had others that were on the former budget committee
221 members come down and help us like a fact-finding mission. Out of the things that we found, there is definitely clear
222 documentation that said and I will quote; this is from the technical review committee in 2019 and I would love to put this
223 information out there I just don't know where to put it; all uppercase "GASOLINE STATION AND CONVENIENCE CENTER
224 (retail motor, fuel, outlet convenience store, doughnut shop and quick serve restaurant) it states that there is an
225 application for conditional use permit as this development will impact ground water protection zone." So I have heard
226 people say we didn't know anything about it, I have probably 7 of these with a reference that state it will impact ground
227 water; I don't know how much more clear it has to be but that is pretty significant. Now the one thing that I have reach
228 out and have not received yet is blasting. Its 2000 ft., I was told 150 ft that is not what the state wants; they want 2000 ft;
229 they want a test well to be monitored pre and post each time; I don't know if there is a test well, I don't know where the
230 documentation is for these pre and post blasts. No one seems to know. He cannot find anything about abutters being
231 notified within the 2000 ft and have their wells been tested. I have reached out to head departments they do not have
232 any documentation; that there leads me to say "why?" DES wanted this and put this forth into this. I do have
233 documentation, just not sure where to post it. Vice Chair Hoelzel, stated she was removing herself from the table at 8:06
234 p.m. Mr. Maldonado stated putting the information on the same page that you put out the announcement would be good;
235 Selectman Campbell stated he could do that. Every time we start to push forward on this it got stonewalled and we
236 couldn't get anywhere, that is why we voted to do it ourselves. Every time someone did a 91-A requests we couldn't get
237 that information, so enough is enough we are going to go and do it. Bond. We don't even have a bond. They started off
238 with one for Lane Road, then it was moved down to Old Manchester Road; I cannot find a bond. I took pictures of a lot of
239 the documentation so if anyone asks I can go back and read some of the information I have. Mr. Maldonado asked if he
240 did this kind of work for a living? It is not a hobby and pretty clear once you start looking at the documentation. Mr.
241 Maldonado stated that anything that you have found you could have found several years ago? Selectman Campbell replied
242 probably if I had known it was there. Me I don't have a problem with the truck stop going in until I found out where it is
243 sitting that's when I said that is not good; we are going to end up in a lawsuit. You have contamination, you will have a big
244 lawsuit and it would spread right down the Lamprey River that is a protected river another documentation said a ¼ mile
245 to any protected rivers I don't think it is even an 1/8 of a mile to the river from that location. All the documents I find are
246 a dead end, how come someone didn't do this; there are people who were paid to do this where were they? I am willing
247 to do it like you I have kids and that ground water is very important to our kids and grandkids. It is the lifeblood of the
248 community; you don't have water you don't have nothing and that is an aquifer. That is why we chose to look into it; it
249 took a long time to make headway and get it going, you are welcome to come down and look through it if you want to.
250 When I get the legal emails that we were talking about earlier we will start looking through that. Mr. Maldonado said
251 thank you and wanted to just get an update. I was told there were no inspections done on the tanks, they are supposed
252 to have the base looked into; I talked to Bob at NHDES and who stated that they will go down and take a look, but they
253 are already backfilled, how can you do the inspection? He was shocked that it was done. I haven't found it yet, but our
254 engineers wanted 3-liner tanks for some reason they went with 2-liner I am still looking into that. Feel free to reach out
255 to me, there is a lot that I am reading, and I am not an engineer, but I have been in construction I have some sense on
256 how things are supposed to be rolled out.

257 Tim Cahill came up and asked a question of Selectman Campbell: you said the lamprey river is federally protected river if
258 so does that mean that the town would be liable if we allowed and approved a project that caused a leak. Selectman

259 Campbell stated he was not sure I thought worse case scenario if they go forward with it and how I see things; the
260 insurance risk should go along with the insurance policy. Tim Cahill stated that the Lamprey is also part of the Great Bay
261 Watershed are all the towns downriver from us are we liable if their water is contaminated from this project? Selectman
262 Campbell stated there is a great possibility of that.

263 Ms. Intonti asked if they were completed with their investigation, Selectman Campbell stated the documents that were
264 flagged for copies and the flash drive with all the electronic documents will suffice. We have enough to proceed, and it
265 can be buttoned up. He gave her a flash drive – it was too small to hold all items needed. He will bring back another one.
266 Chairman Plante, stated that the Board was advised to not have these types of conversation regarding planning project
267 meetings.

268 Selectman Weldy motioned the following:

269 NONPUBLIC RSA 91-a:3,II (c) REPUTATION

270 NONPUBLIC RSA 91-a:3,II (a) PERSONNEL

271 NONPUBLIC RSA 91-a:3,II (d) PROPERTY/REAL ESTATE

March 25, 2022

On Wednesday, March 23, 2022 I received a call from Myles Matteson from the Attorney General's office. The call was regarding the Town of Raymond's filing process for Candidates and the sign up sheets that are used during the filing for Candidacy.

Mr. Matteson explained that he had received a few complaints about some missing information from the Candidates forms that were turned into the Town Clerk. After asking me a few questions about the process, I was asked to scan all of the Candidate forms that pertained to the March 8, 2022 election to him. He also explained that I may be hearing from Detective Richard Tracey regarding this matter. The issue is being looked into further and I will be receiving a letter with their findings. Once I receive the letter I will forward it to the Board of Selectmen and copy the Moderator as well.

Respectfully,

Alyssa Richard

Town Clerk
